

## Don't Miss Out on Health Benefits for You & Your Family

*Here's what you need to do!*

- **Time to enroll:** It's time to enroll in your annual benefits. I want to be sure you don't miss out on the affordable, unique health plans we're making available to you and your family this year.

Your enrollment period starts on \_\_\_\_\_ and ends on \_\_\_\_\_. This is your opportunity to choose valuable health insurance coverage for you and any dependents under the age of 26.

- **Health insurance is important:** We care about your well-being and want to ensure you have an affordable way to get the medical care that you and your family need and deserve.
- **Great plan options:** I'm pleased to share that the low-cost health plans we are offering you have **no-cost** services for almost everything you and your family will need! This means you aren't waiting for a deductible to kick in to get coverage for the services you need the most. From your first day of coverage, you have access to no-cost care for the following:

- |                      |                            |
